Dear Frank,

It has been a week since Plumsted Police Department has gone through the On-Site Assessment with the Chiefs of Police for Accreditation and I have taken a few days to reflect on this accomplishment. I am writing you this letter to acknowledge the level of excellence and professionalism in which I received from the Rodgers Group. They include; Mike Rodgers (MJR), Ted Bremer, Sam Hishman, Mike Peoples and last, but definitely not least, Dan Walsh.

When we began this process together; we inherited a Police Department that was in dire need of direction, leadership and pride. I can't say enough great things about the policy builders of your company. They developed and wrote policies for this agency that have us operating under the best practices in law enforcement today. By no means was this an easy task, and your staff needs to be recognized for this accomplishment. With the current fiscal demands and lack of manpower placed on this agency, your team strived for, and achieved excellence in creating policies that fit our needs. They supplied this agency with the much needed direction that it was lacking and are simply the best at what they do.

Next, this journey would not be complete without the mention of Dan Walsh, our Project Manager. "Project Manager" is not a title that fits for what Dan has done for me and what he has become to this Police Department. When Dan took on this agency, he inherited a newly appointed Officer in Charge, a building that was falling apart, and he had to work with resources that simply did not exist. Dan integrated himself with the officers on not only a professional level, but in a personal level as well. He represents the Rodgers Group motto "**One Team, One Mission: Committed to Public Safety Professionalism**", to the fullest and beyond. I know that we could not have accomplished this monumental feat without him.

Throughout this process, Dan has become a mentor to me from an administrator's standpoint and a new lifelong friend on a personal level. He has helped me in ways that I will carry with me throughout my career and I am better leader because of him. He has made his mark on Plumsted Police Department and I know he will always be a part of this agency. Dan helped me transform this department to a higher professional standard. I would like to personally say, "Thank you for everything Dan, thank you a great experience that I will take with me for the rest of my life".

Lastly, I want to thank the Rodgers Group for their assistance in restoring the pride back into the officers of Plumsted Police Department. The officers have taken ownership into the accreditation of their Police Department, and it is evident in their appearance, conduct and attitude. You are true professionals of your craft and are an asset to all law enforcement agencies. I look forward to working with all you in the future.

Respectfully,
