Dear Colonel Frank Rodgers,

I have received your correspondence of December 10, 2009 and I am certainly in agreement that the officers and staff you identified performed in a dedicated and professional manner over the months we worked on the accreditation process. I have extended my personal thank you to each of them.

I would be remiss however if I did not acknowledge the skill and knowledge you and your group brought to this endeavor. I would like to thank you for your efforts and would appreciate it if you would extend my thank you to the members of your team specifically, Mike Rogers, Mike Peoples, Sam Hishmeh and Ted Bremer.

Our mutual co-elaboration went extremely well from our perspective and we hope The Rogers Group feels the same way.

I additionally would like to thank you as a long time member of the law enforcement community and from a personal perspective for the passion and interest you have brought to this particular facet of law enforcement. I would be quite surprised if you and your team are not remembered as the entity that did the most for "Public Safety Professionalism" in New Jersey ever!

Obliviously, if there is ever a time you or your group needs anything from me or the Berkeley Township Police Department please contact me.

Sincerely,

Chief John C. Weinlein
