Frank,

As you are aware, our on-site assessment by representatives from the New Jersey State Association of Chiefs of Police went exceptionally well. We have been recommended for State Accreditation. While I knew that we would do well, the findings of the assessment exceeded my expectations. It was through the direct efforts of The Rogers Group and our agency that we were able to achieve this lofty goal.

The motto for The Rogers Group is "One Team, One Mission: Committed to Public Safety Professionalism". This was truly demonstrated during the accreditation process at the Pemberton Township Police Department. Your staff, particularly our Rogers Group Project Manager, Dan Walsh, pushed us to not only meet the standards, but to integrate them into our agency culture. When goals seemed almost unattainable, Dan and the rest of your staff pushed us to reach them. They took sincere ownership in making us successful. Their expertise, guidance and advice were invaluable to this process. For this, they have my gratitude.

Your organization truly believes in the benefits of the accreditation process. Thanks again to you, Dan Walsh and the rest of the Rogers Group Team for helping us to reach this goal. Most of all; Thanks for making us a better police agency.

Regards,

David H. Jantas  
Chief of Police
